NESTLE EXTENSIONS FOR ALL SURVEYING POLES

SIMPLY SCREW ON OR PUSH ON

14900000...

Für Vermessungen aller Art im Bau- und Katasterbereich, um große Höhenversätze aus Baugruben oder in der Feldvermessung zu überwinden.

Zur Verlängerung des Prismen- oder GNSS-Stabes.

Einfach aufschrauben bzw. aufstecken.

Aus leichtem Aluminium, PE-410 und PE-510 aus Karbon.

YOUR ADVANTAGES IN APPLICATION

Extensions increase flexibility for all types of surveys

Simplest application with higher precision.

Available in various lengths.

Technical data	Extensions
PE-210 14902000	100 cm, 5/8"- 5/8", aluminium
PE-310 14903000	100 cm, Leica - Leica, aluminium
PE-410 14982000	100 cm, 5/8" - 5/8", carbon
PE-510 14983000	100 cm, Leica - Leica, carbon
PE-225 14900000	50 cm, 5/8" - 5/8", aluminium
PE-235 14901000	50 cm, Leica - Leica, aluminium
PE-45 14998000	50 cm, 5/8" female, 5/8" male, carbon
PE-23 14941000	30 cm, 5/8" - 5/8", aluminium
PE-33 14942000	30 cm, Leica - Leica, aluminium
PE-21 14939000	10 cm, 5/8" - 5/8", aluminium
PE-31 14940000	10 cm, Leica - Leica, aluminium

ACCESSORIES

For working with our prism poles, we offer bipods, prism pole tripods and prisms.

Bipods for poles with Ø 08-12 mm and 22-32 cm, item no. 14803001

Tripod, item no. 14817001.

Prism, item no. 14100000.
